2	1	Report on impact of CO2 injection on long term hydro-regional flow regime in the Paris basin	IFPEN	Report	RE	Nov 2013	24
2	2	Report on brine displacement induced by CO2 injection at the Hatfield demonstration case	BGS	Report	RE	Nov 2013	24
2	3	Report on brine displacement induced by CO2 injection at the GeoLorraine demonstration case	GEOGREEN	Report	RE	Nov 2013	24
2	4	Report on dynamic modelling of the long term dissolution and capillary mechanisms	IFPEN	Report	RE	March 2015	40
2	5	Report on dynamic modelling of the long term free gas migration and dissolution at regional scale	GEOGREEN	Report	RE	Dec 2014	37
2	6	Influence of impurities on the long-term geochemical and geomechanical stability of faulted caprock	TNO	Report	RE	Nov 2014	36
2	7	Report on the large scale fault modelling using joint elements approach	BRGM	Report	RE	Nov 2014	36
2	8	Long term sealing integrity of faulted systems: deep saline formation and depleted gas reservoir	BRGM	Report	RE	July 2015	44
2	9	Assessment of CO2 leakage through wellbore: perspective on the long term confinement efficiency	IGG-CNR	Report	RE	May 2015	42
2	10	Report on uncertainty assessment of the long term faith of CO2 on GeoLorraine demonstration case	GEOGREEN	Report	RE	July 2015	44
